

## Enphase Change of Ownership - Current Owner

Aloha,

Thank you for your inquiry on the Transfer of Ownership process for your KumuKit PV system. There are 2 separate steps to this process.

### Step 1

Transfer the Enphase system monitoring and warranty account to the new homeowner. In an effort to reduce costs and expedite the process, we suggest working directly with Enphase to transfer the PV monitoring service via the link below.

**NOTE: Enphase charges a fee to transfer the monitoring service and remaining warranty to the new owner. The process also requires the current Enphase Enlighten monitor login information.**

Enphase [here](#) for a link to this page.

### Step 2

Attached to this email is the Change of KumuKit PV System Ownership form that will need to be filled out (to the best of your ability), signed, dated and sent back to us. If you should have any other questions or concerns regarding the Transfer of Ownership, please feel free to contact us at 808-524-7336.

Hawaii Energy Connection does not charge for this process, but we really do appreciate referrals :)

By signing this form, New Owner represents and warrants that ownership of the Solar Electricity Photovoltaic System purchased from Hawaii Energy Connection, also known as a KumuKit™ PV System ("PV System"), installed at the System Address above has been transferred from the Previous Owner to the New System Owner on the Date of PV System Ownership Transfer listed above, and that the PV System remains at the original end user location.

New Owner will, at its own expense, defend and indemnify Hawaii Energy Connection and its affiliates from and against any claims, suits, losses, damages, liabilities, costs, and expenses (including reasonable attorneys' fees) brought by any other third party resulting from or relating to the representations, warranties, and transfer of ownership hereunder.

New Owner's contact information, as provided above, will be entered into Hawaii Energy Connection's customer records as primary contact data for the PV System located at the System Address.

Hawaii Energy Connection will transfer any remaining Warranty with respect to the PV System to the New System Owner upon receipt of this form. Upon transfer, all Warranty periods shall be prorated beginning on the original date of installation.

You will be notified via e-mail when your Continuation of Coverage is effective. Hawaii Energy Connection reserves the right to request evidence of the Date of PV System Ownership Transfer.
